**TRANS-ATLANTIC TRAVELERS.**

Furnished Special Attendants by the Pennsylvania System.

The Bureau of attendants for trans-Atlantic travelers established in Jersey City and New York City twenty years ago by the Pennsylvania System has proven a great convenience to persons making European trips and to tourists arriving in America at that port. It will be particularly convenient for visitors to the Paris exposition because the departure docks of most of the Atlantic steamship lines are convenient to the new Jersey City Passenger station of the Pennsylvania railroad company.

This bureau consists of experienced agents whose duties are to meet passengers arriving in Jersey City and New York over the Pennsylvania lines and assist them in arranging for trans-Atlantic trips via any of the steamship lines by conducting them to steamships and in making arrangements for a trip abroad. These agents will provide cabs operated by the Pennsylvania system and aid passengers with their baggage. They are fully posted on matters pertaining to steamships leaving New York, and arrangements can be made through them for procuring steamship tickets in advance.

They also meet incoming steamships to aid travelers in obtaining details for continuing journeys from New York over the Pennsylvania lines by turning tickets, arranging for the transfer of baggage from steamship docks after it has been passed by custom inspectors, and having the same checked through to destination. They will reserve sleeping car accommodations and relieve persons of the foregoing details, making themselves useful as attendants and guides free of charge.

Further information on the subject may be obtained by addressing the nearest Pennsylvania lines ticket agent, or W. W. RICHARDSON, District Passenger Agent, Indianapolis, Ind.

**BOERS ARE ACTIVE**

Federal Forces Administer Telling Rebuffs to British Forces.

**MORE BRITISH LAXITY**

Boers Find a Considerable Force of the Enemy Sound Asleep and Take Charge of Camp.

Gen. Dewet Scores a Decided Hit. Singular Lack of Information Regarding Roberts.

Cape Town, April 8.—Owing to a lack of horses and to the sufferings of the men from pneumonia, due to thin clothing, Lord Roberts has decided not to make a big move until the troops are provided with thicker uniforms.

Pretoria, April 8, via Lourenço Marques.—It is reported that Gen. Dewet attacked and defeated a large force of British cavalry at Dewetsdorp, southeast of Bloemfontein, capturing 450 prisoners and a large quantity of ammunition and camp stores and inflicting heavy loss.

London, April 9.—When it is borne in mind that all the dispatches from the front are severely censored, there is little in the news to bring satisfaction to England. Assurances that nothing need be feared even if the railways and telegraphs are cut and Bloemfontein is isolated, together with that the ladies and other civilians are being ordered away do not augur well. There are rumors from Cape Town that the telegraph wires were already cut yesterday and also that the troops sent to the relief of the Royal Irish Rifles are missing, though these may be the outcome of Boer exaggerations to encourage the burghers.

The attempt of Gen. Colville to catch the Boer leaders in conference at Kofffontein, failed, probably, as usual, because of the lack of cavalry. The results of these serious checks to the British arms is that the whole Free State is up again, and that the Boers are full of activity over the entire field. A belated Boer dispatch says that bayonets were being made for the foreign legion under the late Gen. De Villiers.

The Boers are boasting that the Colesburg and Stormberg commands, numbering 6,000 with 10 cannon and 75 wagons have gotten safely through, thus performing a "magnificent strategic feat." A Boer account of the Bloemfontein water works affair, says: "Col. Broadwood evacuated Thaba N'Chu owing to the advance of Commandant Olivier from the south. The federal troops found the British camp in peaceful slumber, without a sentinel or an outpost to give the alarm. Gen. Dewet immediately placed guns and the commands in such positions as to surround the British who did not have time to recover from their surprise."

The Cape Town correspondent of The Times, discussing the affair, says: "All the details only serve to bring out clearly the marvelous cleverness of the Boers, no less than the marvelous carelessness and imprudence of the British officers, whom, it would seem, no series of disasters will ever teach to keep wide awake."

"The Boers in Col. Broadwood's rear drove his force into the party at the drift exactly as partridges are driven to a gun. At the drift itself, as each wagon descended the hollow, it was shown which way to drive, so as not to block the convoy. When the guns arrived, the trap was all clear again for their reception. As one who was

present said: 'It was like a cork room. The Boers politely took your rifle and asked you kindly to step to one side. There was nothing else for you to do.' The American scout, Burnham, testifies to the terrific pace with which the Boer commands cover the ground, and the ease with which they move their guns."

The Boers are displaying increased activity in Natal, but there is no sign that Gen. Buller is moving. Mafeking was still besieged on April 1. The garrison was suffering severely from lack of bread, and a mixture of oats, bran and meal was being done duty for that article, which is described as "course in substance, of the color of gingerbread and of the consistency of Norwegian pine."

Talked For the Boers. Washington, April 9.—An immense audience gathered at the Grand Opera house last night to listen to an address on the war in South Africa from the Hon. Webster Davis, ex-assistant secretary of the interior, who has just returned to the United States from that country. Every available bit of standing room in the opera house, the largest auditorium in Washington, was filled with auditors, who paid close attention to every word uttered by the speaker and manifested their appreciation of his telling points with frequent generous applause.

British Anxious to Advance. Bloemfontein, April 8.—The Boers are reported in force to the south, threatening the railroad, which, however, is strongly protected. British pickets at Springfield, eight miles distant, were attacked yesterday by Boers advancing from the water works. Remounts are rapidly arriving. The British are in high spirits and anxious to advance.

**UNREST IN SWAZILAND**

Absence of "White Man's Law" Producing a Native Reign of Terror. Lourenço Marques, April 8.—A runner from Sobobo's kraal, Swaziland, says Sobobo has been killed and his women have been tied up with ropes. Unrest is increasing in the country, which is in a most unsettled state, bordering on a reign of terror. In the absence of "white man's law" many natives have been threatened, and in one district they have been completely killed off. A messenger from Bronsdrup, Swaziland, says the Boers are making presents to the queen and are seeking permission to pass through Swaziland armed.

M'Quezie, the famous old Swazi chief, and two women of his household, with their infants have been seized at M'Quezie's kraal. The kraal was sacked and burned and the chief's son captured. Numerous hands are marauding about—natives and Swazis—and marauding in every direction. This correspondent found M'Quezie's son in charge of two natives, who admitted the killing of the chief, but said they had followed the orders of the Swazi queen.

**STEYN IS HOPEFUL**

Declares That Burghers Are in Better Position Than at Beginning. Lourenço Marques, April 8.—President Steyn in his address to the Free State volksraad at Kroonstad, said the burghers were in better position than at the commencement of hostilities. He threatened those who had surrendered to the British and announced that the Free State had borrowed half a million from the Transvaal for the purpose of war. England, he declares, had broken every convention.

Referring to the correspondence with Lord Salisbury, he said: "The destiny of the republics is in higher hands than those of the British government, namely, in the hands of the people of France, Russia and Germany, who are agitating for intervention. The war will soon end. If it is true that Boer prisoners have been sent to St. Helena we would be justified in consigning British prisoners to the lowest depths of the Johannesburg mines."

**SAUCY INSURGENTS**

Situation in the Philippines Not of the Most Encouraging Character.

**NEED OF MORE TROOPS**

Official Representation Made That Force Both in North and South Luzon Is Inadequate.

Encounters Between Insurgents and American Troops Continue at Many Points.

Manila, April 9.—Reports of encounters between the American troops and the insurgents continue to arrive from many points. On Friday Capt. Sturges, while reconnoitering, struck an insurgent outpost on the Nevalches road, five miles distant from Manila, killing two and capturing 10. All were in full uniform. Unfortunately Capt. Sturges' force was not large enough to pursue the main body.

A detachment of the 42d infantry, while scouting in Laguna province, was pursued by the insurgents and obliged to take refuge in a church at Paeto, where the Americans repelled the rebels until reinforcements arrived. Lieut. Gordon, with a company of the 16th infantry, while scouting near Aparri, Cagayan province, engaged 250 insurgents. Lieut. Gordon was wounded. A sergeant and a corporal of Company I, 18 infantry, were killed in a severe fight in Capiz province, Island of Panay.

The insurgents made a night attack upon Calbayog, Island of Samar. They killed the sentry, swarmed into town, and searched the house of Maj. Gilmore of the 43d infantry, who was absent. They killed his cook. Ultimately the Americans drove them out of town, killing four and capturing 12.

Gen. Young, commanding in north Luzon, has made several requests for reinforcements, representing that his force is inadequate, that the men are exhausted by the necessity of constant vigilance, that he is unable to garrison the towns in his jurisdiction, that the insurgents are returning to the district and killing the Amigos and that it is necessary for him to inflict punishment in several sections before the rainy season begins. Gen. James Bell, who is commanding in southern Luzon, has made similar representations. He says his forces are inadequate and that he merely holds a few towns, without controlling the territory.

The president of the town of Samal, province of Bataan, Luzon, and another prominent native, have been assassinated because they were known to be friendly to the Americans. The president of another town has joined the insurgents because they had threatened to kill him if he did not.

Heavy Fire Losses. Preetorville, O., April 9.—The large doublemill of G. D. Pugh at Preetorville, O., burned Saturday, and from this conflagration resulted the destruction of half the village, clearing two squares of residences and business houses. But two stores are left. The loss is estimated at nearly \$200,000, with only 30 per cent insurance. Twelve residences were destroyed. The fire department of Huntington, W. Va., rendered help. No casualties are reported.

Pittsburg, April 9.—A thorough inspection of the Joseph Horn & Co. department store building where the big fire occurred Saturday night, does not materially change the estimates made at the time of loss and insurance. From the top story of the structure to the basement the stock, valued at \$1,000,000, is an almost total loss either by fire or water, and the building is damaged to the extent of at least \$250,000.

Chicago, April 9.—Fire yesterday destroyed the piano and organ factory of M. Schulz company, corner Morgan and Superior streets, entailing a loss of \$50,000, covered by insurance.

Saratoga, N. Y., April 9.—The Sans Souci opera house block and the Schaffer building at Ballston Spa were burned yesterday. Loss \$150,000.

Fitchburg, Mass., April 9.—Fire yesterday destroyed the hardware store of the Damon & Gould company. Loss \$90,000.

Ann Arbor, Mich., April 9.—Doonwell Bros' large paper mills at Forsyth station, four miles west of Ann Arbor, burned yesterday and 25 families, which depended upon the mills for a living, are thrown out of employment.

Cardinal, Ont., April 9.—The glue works here were completely destroyed by fire. Loss, \$150,000. The town's electric light works were also destroyed.

Colorado Springs, Colo., April 9.—The 4-story brick and stone Hagerman block has been damaged to the extent of \$100,000 by fire.

**A Young Man's Suicide.**

Chicago, April 9.—Taylor C. Wood committed suicide by shooting himself through the head at the Montone hotel last night. The dead man was 34 years old and the son of T. S. Wood, a wealthy mine owner of Leadville, Col. It is thought despondency over illness caused him to end his life.

**HOOSIER TRAGEDY**

Tragic Sequel of a Domestic Complication in the Auburn Neighborhood.

Prompted by Jealousy William Davis Shoots His Neighbor "Yes" Steele From Ambush Saturday Night.

Bloodhounds Put on the Trail and Lead Direct to Davis Who Confesses His Crime.

Auburn, Ind., April 9.—"Yes" Steele was shot and killed by William Davis, 10 miles east of here Saturday night. During the summer Davis and wife and Steele had boarded at the Smith home. Steele had had paid some attention to Davis' wife, and Davis made threats that he would fix Steele unless he attended to his business. Steele walked to a neighbor's home Saturday night. Just as he opened the door a shot was fired. Steele entered the house and exclaimed, "I am shot through the heart," and, falling in his chair died immediately. The Farnsworth bloodhounds followed the trail to the door of William Davis. When arrested Davis confessed the deed and said he would accompany the officer without fear. As he left the residence his two daughters wrung their hands and said, "Oh, they will hang pa." He replied coolly, "They won't hurt me; don't worry." The murderer was hurried to jail.

Heavy Damage at Walton. Walton, Ind., April 9.—Fire destroyed property valued at \$15,000 at this place. It was feared for a time that the entire village would burn. The blaze originated in Mrs. John Stagg's millinery store, spread to the general store adjoining, owned by her husband and then Ed Wendling's butcher shop, Milroy Routh's barbershop, the town hall and jail, the gas regulator building, the Dutchess livery stable and Robert Phillips' residence. The loss is covered by a small insurance. The fire in the regulator shut off Lo-gansport's supply of natural gas and much discomfort was caused in that city.

**Rivers Falling.**

Houston, Tex., April 9.—As a rule the Texas rivers are now falling and there is not much danger of a general flood. The crops have been damaged over a wide area, but there is still time for farmers to replant if they can get the seed. Corn has been planted over once and will have to be planted the third time. The farmers as a rule have not planted much cotton because the heavy rains have kept them out of the fields. The railroads have lost many small bridges and it will be a week before traffic resumes its normal condition.

Fatal Clash Between Civil Authorities at Middlesboro, Ky.

Middlesboro, Ky., April 9.—Much excitement prevails here over a clash of the authorities Saturday night. Will Mosley, a special policeman, shot Charles Cecil, a deputy sheriff, and was himself killed later by unknown persons. Warrants were sworn out for the arrest of Chief of Police King, John Mosley, a brother of the man killed, and Will Sullivan. The latter two, who were extra policemen, went with Chief of Police King to arrest a negro who had been released by the city judge. The fight is the outcome of the bitter feeling that has existed here between two factions and the end is difficult to predict. The situation is alarming.

Norfolk, Va., April 9.—All preparations have been completed for the trial over the measured course in lower Chesapeake bay of the torpedo boat destroyer Sringham. She was tied up in this port for 48 hours while the skilled mechanics who constructed her were at work on her, making every bearing, nut, bolt and screw of her machinery perfect in its working parts. The official trial board, headed by Rear Admiral Rodgers, arrived from Washington this morning, and the Sringham left immediately on her trial. She is expected to surpass in speed every ship in the navy.

**Gatacre Arrived Too Late.**

Bethany, Orange Free State, April 8.—Gen. Gatacre's force has returned here without having found any trace of the ill-fated British column captured by the Reddersburg commando. It is impossible to estimate the British losses, but as the men fought stubbornly, it is probable that these were large. Gen. Gatacre arrived too late. Reddersburg was already re-occupied by the Boers and the enemy are now threatening the lines to the south.

**Will Be Ready on Time.**

Pittsburg, April 9.—The Carnegie company, who received the contract for structural iron to be used in the construction of the convention building at Kansas City, have commenced shipment of the material. Several cars were started west today. As far as the Carnegie company is concerned, the building can be completed on time.

THE republicans of Jackson township have to intend a ticket that will win at the polls in November.

THE township ticket named will have the hearty support of all republicans, which means that the Billy Hume's successor will be a republican.

THE democrats see at once the strength of the township ticket nominated Saturday and are already doing some figuring. They have failed to figure out a way to beat it.

THERE never comes a better time to show your appreciation of the liberality of the home merchant than when you do your spring shopping.

You need not go away from home for Easter novelties. The Seymour merchants have prepared for your wants in that line.

It is said that some of the friends of John Overmyer have concluded that the ex-republican office holder can not be nominated and therefore they will transfer their allegiance before the ban wagon is out of sight.

WHAT a failure has been the attempted boom for Admiral Dewey. Mrs. Dewey just as well be content, for her prospects to be mistress of the White House are not very flattering.

THE democrats are troubled about harmonizing Bryan with anything but the Chicago platform. That platform won't harmonize democrats and Bryan can't stand on anything else. That is the reason something is sprung occasionally with a view of getting another candidate in the field. But so far Bryan won't down, therefore the Chicago platform must be continued in force and effect.

## Ready for Easter.

Our new stock of spring millinery is complete with all the latest styles and patterns. We have a fine line of Easter goods as ever brought to Seymour. Come and see us. Hodapp & Wiethoff.

## A STRONG TICKET NAMED.

### Republicans of Jackson Township Have Named the Men That Will Lead on to Victory.

The republicans of Jackson township expressed their preferences between republicans Saturday, but today they are all for the ticket nominated and will work from now until November for its success. In fact it is a ticket worthy the hearty support of every republican, for it is made up of men in whose hands public affairs can be placed with perfect confidence. The nominees are all well known to the people of Seymour and Jackson township and their high standing as men and as citizens commend them to the voters and taxpayers. While excellent men were defeated for nominations at the primary Saturday, the defeated candidates are all good and faithful republicans, willing to abide by the will of the majority, and will give their more successful opponents enthusiastic support.

PEOPLE WHO, UNDER ENGLISH LAW, MAY LAUGH AT THE POLICE.

The Various Classes of Persons in Great Britain Who Cannot Be Arrested—Royalty, as a Matter of Course, is First on the List.

The other day at the Westminster (England) county court a warrant for the arrest and commitment of a solicitor had to be extended for four months more, as, though the solicitor was walking about the streets in the sight of the police, they dared not lay a finger on him. Even the judge seemed surprised that the man could not be arrested. But it is probable he never will be arrested, for, as he carries a charm on his person in the form of a brief, his body cannot be seized. This is because no one engaged on business at a law court can be arrested for any breach of the civil law. If you happen to owe a debt, to have a judgment delivered against you and to be committed to prison for not paying, of course you can be arrested under ordinary circumstances, but if you are subpoenaed as a witness you cannot be arrested while going to the place, while staying there to give evidence or while returning home, and you may feel sure that the courts will stick up for you.

There are many other people who can laugh at the police. Of course no member of the royal family can be arrested under any circumstances. Servants of the royal household also have great privileges in this way. Should one of the royal servants commit a crime at the command of the crown he could not be arrested. As the crown can do no wrong, of course any order the crown should give would be considered right, and Bobby would not dare to make an arrest.

Then members of parliament, though they can be arrested for some things, are exempt in certain cases where ordinary citizens would certainly be run in. If a member of the house of commons commits a crime, he can be arrested like any other citizen, but if it is a case of contempt of court, such as not paying debts, he can snap his fingers at the police during the greater part of the year—that is to say, he cannot be arrested while parliament is sitting nor for 40 days before and 40 days after the session. This gives him exemption during about nine-tenths of the year.

Of course a peer enjoys the same good fortune, and so does a peeress in her own right. But in their case the privilege is still greater, for they cannot be arrested on a civil process at any time, whether parliament is sitting or not. In fact, if the heir to a peerage happens to be in prison for any offense not criminal, he is liberated the moment he succeeds to the title.

Foreign ambassadors may commit any offense, from drunkenness up to murder, without running the slightest risk of seeing the inside of an English prison. And not only have the ambassadors themselves this privilege, but their secretaries, cochmen, cooks, valets, etc., are equally favored individuals, for the theory is that an ambassador is useless without his dinner, his drives, his slaves and the like.

When an ambassador commits a crime, all that can be done is to ask his government to recall him. But, of course, if he went about the streets knocking many people down he would certainly be arrested and held temporarily. But he could not be tried and punished. The foreign ambassador's house, family and servants are looked upon as if they were in their own country. Under no circumstances could a policeman or bailiff break into the house or arrest any of the inhabitants.

Soldiers, while on service, could run up debts, refuse to pay, and if a judge, after ordering them to pay, without result, issued a warrant for their arrest and commitment, no policeman dare execute it unless the amount were over £150. Navy men enjoy the same privileges, but no doubt they seldom get the opportunity of exercising them.

The clergy are another class of men who are sometimes secure against arrest. A clergyman cannot be arrested when he is celebrating divine service or conducting the celebration of rites for the dead; nor can he be touched when going to or returning from either of these duties. Any one breaking the law in this respect might be punished with as much as two years' imprisonment with hard labor.

On Sundays we are all privileged. No one can be arrested on Sunday except for treason, felony or breach of the peace. If any one tries it on with you, you can resist up to the point of killing him.

A curious rule in connection with arrest is not generally known—if a policeman comes along after a fight or an assault, he can make no arrest without a warrant.—London Tit-Bits.

## Makes Brilliant Flames.

People who live on the New England coast like to use ocean driftwood as fuel in open fireplaces. It is impregnated with copper and ocean salts and when burned gives out the most brilliant colored flames. It is asserted that a New Bedford dealer has orders for the wood from all parts of the country, and even from Europe, and ships hundreds of barrels of it yearly. Various attempts have been made to imitate this wood by artificial process, but without success. Long submersion in the sea water is necessary to produce the brilliant flames.—New York Tribune.

True nobility is in the mind, not in the flesh. I wish to leave after me when I die my memory and good works.—King Alfred the Great.

## VANQUISHED A SPOOK.

BILL SCROGGINS DID IT AND THEN DISAPPEARED.

The Singular History of a Peculiar Character Who Located Wells For Missouri Farmers and Juggled With Trained Snakes.

Rev. Bill Scroggins was a character in a border county of Missouri in 1844. How he acquired the ecclesiastical prefix and what he did under the title were stories which used to be told in the farmhouses of what is now known as Cass county.

They said he had been a snake charmer when he was a young man, that he traveled about the country as a sort of magician and that he showed farmers with his divining rod where to dig wells.

The people of what was then a frontier country assembled once a year in their respective communities and held camp meetings. On one of these religious occasions Bill followed the crowd with his bag of reptiles. The minister, an old man whose face was like that of a patriarch, told the story in a sermon of Moses lifting up the brazen serpent in the camp of Israel under the command of Jehovah. The Missouri farmer who used to entertain travelers with the recital said that the congregation was not particularly moved by the appeal, but after its delivery Bill Scroggins got up and announced that he had a bag of real, crawling, hissing reptiles which he would exhibit after dinner just outside the camp ground, and he claimed that he would show the people some snake tricks which would beat the Mosaic story they had just heard.

In spite of the protest of the minister the people turned out to the live snake show, and Bill gave them an exhibition which was a great success. It is said, or it used to be said, that there wasn't a snake trick which Bill Scroggins' serpents didn't do. When the exhibition was over, Bill told the people that he was a sort of missionary himself in connection with his business of locating wells and that he would call on each member in the evening and advise with them as to their spiritual and worldly wants.

When he called, his first question was, "Have you got a well?" If the reply was in the negative, and wells were scarce, Bill informed the member that he must have one located, and then he opened his bag of snakes and as they began crawling Bill lifted up his voice and called the people to repentance. He told them the snakes would do no harm if they (the people) would give him the job of locating wells.

It was a tax on human belief, but the Missourian who told the story vouched for the truth of his assertion that the people gave Bill more orders than he could fill in one season and that he broke up the camp meeting. He was the first heretic in the west, although the word was unknown in that country then. He became famous and was in demand. Wherever he traveled he had his bag of trained snakes, and he waxed fat and became independent.

Whenever there was any doubt about the success of any movement the word was passed that Rev. Bill Scroggins should be summoned.

People in that section believed in ghosts, as many more enlightened people believe in them in this day. There was one ghost which had done a lively business along the highway between the county seat and a river known to this day as Bear creek. It was the custom of this ghost to chase belated horsemen over the highway until the ford at Bear creek was reached. There the chase stopped. The ghost never crossed the stream.

When the fame of Rev. Bill Scroggins had spread abroad, it was suggested that he travel over the Bear creek road and try his hand on the spirit. Bill accepted the call. He made a number of journeys before the ghost materialized, and there were people who began doubting the existence of the ghost, while others cited Rev. Bill as one who could overcome anything, and by that token he had made the ghost take to the woods. The community was equally divided.

However, the ghost showed up one night in the midst of a storm and challenged Rev. Bill to ride for his life. The snake ecclesiastical refused, and there was a contest in which Bill's horse was killed, and he was left afoot. The ghost got the bag of snakes and escaped to the ford, where Bill overtook him on the following day, and the contest was renewed. The ghost undertook to turn the snakes on Bill, but they refused to act. Bill got possession of them and turned them on the spirit. They drove the spirit into Bear creek and across it, and the spirit fled, and that was the end of the ghost in that country.

Bill returned in triumph to the county seat and told the story. It was received with some doubt, but as years slipped by and nobody was chased people began to believe Bill, and apologies came in rather late. But Bill was vindicated. Then he mysteriously disappeared.

Some years later a den of snakes was discovered in what is now Bates county, Mo., the adjoining county on the south to Cass, and in this den was discovered the skeleton of a man. In the opinion of many the skeleton was none other than that of Rev. Bill Scroggins. So well was his memory revered that the bones were collected from the snake den, and when the first courthouse was built in Cass county, it is said, they were placed in a box under the cornerstone and were found there years after when the old courthouse was demolished.—Brooklyn Eagle.

#### DIED.

BEHRMAN—Henry G. Behrman died  
at his home at Waymansville, Mon-  
day morning, April 9, after an illness  
of several weeks, aged 45 years. He  
was one of the best known men of that  
community. He was related to the  
Ackermans in this city.

#### Takes Big Inducements.

A Kansas county has a \$23,000 poor  
farm, with one occupant. It takes big  
inducements nowadays to get Kansans  
to become paupers. —Courier-Journal.

George Massman went to Terre  
Haute to represent his lodge, A. O. U.  
W. at the Grand Lodge meeting.

Don't forget Mrs. Florence Bacon's  
lecture tonight. "Nearer my God to  
Thee" will be sung and Mrs. Bacon  
will give the Delsarte rendition.

George Wieneke, of the B. & O. yard,  
who has been very sick of grip, is  
able to be up part of the time. He is  
very weak.

Charles Mote, of Hayden, who has  
been confined to his home since last  
fall with kidney trouble, is better and  
came down today for the first time.

The Deering-Turvester Company, of  
Chicago, has applied to the Division  
of Forestry for a working plan for its  
54,000-acre tract of hardwood timber  
in Southeastern Missouri. This marks  
what is probably the first attempt of  
an American manufacturing establish-  
ment to employ modern forest methods  
in raising hardwood timber for its  
own use.

#### PEDAGOGUES COMING.

Next Annual Meeting of the S. I.  
T. A. to be Held in Seymour.

Seymour will entertain the Southern  
Indiana Teachers' Association next  
year. That was decided at Evansville  
at noon Saturday. Bloomington was  
the chief competitor but Seymour had  
five votes out of the seven members of  
the committee. Supt. H. C. Montgom-  
ery and the Seymour teachers worked  
faithfully and effectively for the meet-  
ing and enlisted the support of many  
others. Seymour owes a debt of grati-  
tude to them, for this will be the most  
important meeting ever held in our  
city, and one that will be of lasting  
benefit.

The meeting will bring together hun-  
dreds of teachers from all parts of  
Southern Indiana to remain with us  
two or three days. It is an honor to  
entertain them, and to entertain them  
will do us all good.

#### His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen  
of Hannibal, Mo., lately had a won-  
derful deliverance from a frightful  
death. In telling of it he says: "I was  
taken with Typhoid Fever, that ran  
into Pneumonia. My lungs became  
hardened. I was so weak I couldn't  
even sit up in bed. Nothing helped  
me. I expected to soon die of con-  
sumption, when I heard of Dr. King's  
New Discovery. One bottle gave great  
relief. I continued to use it, and now  
am well and strong. I can't say too  
much in its praise." This marvelous  
medicine is the surest and quickest  
cure in the world for all throat and  
lung trouble. Regular size 50 cents  
and \$1.00. Trial bottles free at W. F.

#### A Small Blaze.

This forenoon the house occupied by  
James Christie, on Indianapolis Ave-  
nue, between Fifth and Sixth streets,  
caught fire in the roof of the kitchen  
and for a little time there was consid-  
erable excitement in that vicinity. A  
man passing along the street discov-  
ered the blaze and was soon on the  
house with a bucket of water. More  
water was carried by the women of the  
neighborhood and in a short time the  
fire was out. The damage was slight.  
The house is owned by J. M. Lewis sr.

## Don't Be Funny.

It does not pay. If you have a good thing, tell it right out. Don't use false means to attract attention. We say "right out" and mean it, too, that Dr. Caldwell's Syrup Pepsin will cure every case of Stomach Trouble. I will stop any pain caused by indigestion; it knocks Sick Headache by attacking the cause of the complaint and aids you to digest your food, no matter what you eat.

OSGOOD, Mo., Oct. 28, 1899.  
GENTLEMEN:—I have used Syrup Pepsin for some time and find it gives most excellent results and it is one of the greatest selling preparations I have ever carried in stock.

I do not hesitate to recommend it. Very Respectfully,  
Dr. T. Jones.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system.
